PROFILE

I have a strong ability to translate UI/UX designs into responsive interfaces that closely align with design specifications. I'm experienced with a range of UI frameworks and component libraries such as NextJs, Tailwind CSS, Aceternity UI and Magic UI which allow me to build visually appealing and user-friendly interfaces across devices. My focus on detail ensures a smooth user experience while maintaining accessibility and performance.

WORK EXPERIENCE

FRONT-END DEVELOPER (INTERNSHIP)

Intelliseven Technology Solutions Inc.

- Developed and implemented the user interface for a mobile app (Attendance System) using React Native & Tailwind CSS, enhancing its design and accessibility.
- Added interactive features such as task management feature wherein users can create tasks and log their accomplishments.
- Focused on frontend development, optimizing the UI responsiveness and integrating seamless navigations for better engagement.
